A blank sheet of graph paper featuring a grid of horizontal and vertical dotted lines. The grid is composed of 10 columns and 8 rows of squares. A solid black L-shaped border runs along the top and left edges of the page. The right edge of the page has a dashed vertical line. There are some faint, illegible markings near the bottom center of the grid.

The figure shows a blank coordinate grid. The vertical axis (y-axis) is on the left, and the horizontal axis (x-axis) is at the bottom. The grid is composed of 10 horizontal lines and 10 vertical lines, creating a 9x9 grid of squares. The axes are labeled with mathematical symbols: the y-axis has a closing parenthesis ')' at the top and an opening parenthesis '(' at the bottom; the x-axis has an opening parenthesis '(' on the left and a closing parenthesis ')' on the right. The grid is used for plotting a graph.
